

THE DAILY BULLETIN.
SATURDAY EVE., JULY 19, 1884.

The taxable value of Texas property this year is \$60,000,000 more than last.

The State meeting of the Christian Church will be held at Paris, August 12th.

B. F. Jones, who is managing the Blaine campaign, has issued an appeal for money.

ROWAN COUNTY is to have a newspaper. It will be printed at Morehead and is to be called the Kentucky Times.

The intense heat at Marseilles has favored the spread of the cholera, and the mortality is said to be growing greater daily.

PROPHETIC.—The republican nominee whoever he may be, cannot possibly be elected this year.—James G. Blaine. (See Herald Washington despatches, May 30, 1884.)

There will be a grand ratification meeting by the Democrats at Portsmouth, on the 23rd. Governor Hooley and other distinguished Democrats will address the meeting.

The Republican State Convention of Kansas adopted a platform which declares that prohibition is the will of the people, without distinction of party and must be enforced.

The production of the suppressed plank of the Chicago platform is received with the wildest enthusiasm in Kentucky. The bald-headed men and the dukes of both parties are now practically unanimous for the Chicago ticket.

The Republican press has much to say about Governor Cleveland having when sheriff, hung a couple of murderers. Malefactors are accustomed to discuss the officers of the law, particularly of those who do their duty.

Mr. CLEVELAND will poll nearly the whole of the Democratic vote, he will get the largest independent vote ever cast for a party nominee in the country, and he will, we firmly believe, be the next President of the United States." So says the Brooklyn Eagle.

Miss HENDRICKS is a handsome woman of fifty, small, dark hair and eyes; wears glasses, dresses plainly and elegantly; a brilliant conversationalist, with great tact; is charitable and philanthropic; helps her husband prepare his speeches; is a good housewife and ambitious.

The Treasury Department has been informed by one of its agents on the Canadian border that paper rags, supposed to have been collected in cholera-infected districts of Egypt, Turkey and South France, are being imported into the United States through Canadian ports. They are described as of a low grade, and likely to contain the germs of the disease. A large lot was recently shipped to this country from Liverpool.

INFORMATION has been received from close friends of General Butler, by F. Siviley, Secretary of the Anti-monopolist Committee, dispelling all doubts regarding Butler's candidacy for the Presidency on the Independent ticket, and stating definitely and positively that he will run. Siviley expressed the most absolute certainty that Butler would be a candidate with the endorsement of the Greenbacks, Anti-monopolists, and probably the laboring men. Butler's refusal, at present, to make a public statement, Siviley says, was prompted by his desire to first see what will be done by the Convention of Labor Representatives to be held at Chicago July 30.

The Cause of Grady's Opposition.—The Harrisburg (Pa.) Patriot says: The opposition of Senator Grady to Governor Cleveland is easily accounted for. The Governor objected to and exposed Grady's corrupt methods as a State Senator. He was one of those legislators who are always "on the make" and who can never see any virtue in a measure that hasn't a job in it. He was always in opposition to every suggestion of reform and ready to operate with the worst element in either party in promoting legislation that had money in it.

Such characters were the natural enemies of the reforms which the Governor had so much at heart. Last fall he wrote to John Kelly, who has Grady in his keeping and is responsible for his being in the Legislature, protesting against his re-selection from "a desire to promote the interests of the people and the improvement of legislative methods." The tendency of such a position on the part of the Governor was to deprive the boss of his power and to diminish the usefulness and profits of his understrapper.

Their hostility was the inevitable consequence, but the very reason that induces such characters to oppose the Democratic candidate for President will draw to his support the honest and conscientious citizens who are influenced by "a desire to promote the interests of the people and the improvement of legislative methods."

ASIATIC CHOLERA.

Five Cases Reported in New York—Gloom Outlook in France.

NEW YORK, July 19.—The operator at the police headquarters received a dispatch from Mulberry Street Police Station as follows: "There are five cases of supposed cholera discovered at No. 28 Spring street, in the home of a family named Kumner." As soon as the dispatch was received the messengers hurried to the scene of the trouble and notified Dr. Nagle of the fact. He at once sent out several sanitary inspectors to investigate the matter, and if the case were Asiatic cholera to take every precaution to check a further spread of the disease. The doctors are now in council.

PARIS, July 19.—Unofficial advice from Marseilles states that the situation there is becoming no worse. The heat is unbearable, and there is no wind stirring. The epidemic is spreading, and the mortality is daily increasing.

NEW ORLEANS, July 19.—In accordance with a resolution adopted by the Board of Health July 9, the President of the Board has issued rigorous quarantine regulations governing all vessels returning from Toulon, Marseilles, and other ports, which may have been infected with cholera.

London, July 19.—The health officers here are organizing a hospital service in the event cholera makes its appearance. Italy and Switzerland are preparing to prevent the introduction of cholera into their territories. Switzerland is willing to guard the French frontier and to examine all persons and good crossing it.

NEW YORK, July 19.—Hospital for cholera patients has been formed at Chateau St. Louis, and Lino, Italy.

TOULON, July 19.—Fourteen deaths last night. The Mayor is improving. The Deputy Mayor is also ill. The police continue to be on the alert.

MARSEILLE, July 19.—Twenty-three deaths last night. Cholera has appeared at Arles forty-four miles from here. Three dead there.

SLUGGERS AND WRESTLERS.

Japanese Wrestler as a Boxer—Full James-Dempsey Fight.

CHICAGO, July 19.—Nateda Soraikai, the Japanese wrestler, with Wm. E. Harding, the sports news writer, have arrived. The Japanese are to be pitted in a wrestling match, Greek, Roman and Japanese style.

On the arrival he created quite a sensation in front of the Washington Hotel by two at pedestal stones who called him a Chinaman. There was all Harding could do to prevent him administering a sound thrash to the off-servant.

Harding states that Richard K. Fox, he authorized him to match Joe Acton, of Philadelphia, champion catch-as-catch-can wrestler, against Muldoon for \$1,000,000.

In reference to the proposed fight between Fulljams, champion of Canada, and Jack Dempsey, of New York, which failed to come off Monday, Harding says: "I am sure that the match, Greek, Roman and Japanese style, will be a success. I am sure that the spectators will be handily paid."

Chicago, July 19.—Following the example of Mr. Blaine's friends, several wealthy and influential summer residents of this place, aided admiral of Governors Island, offered the services of their clubs to the President. John G. Thompson was elected President. Judge Thurman took a part in the organization of the Club and delivered a address.

Ladies are Ineligible.

WASHINGTON, July 19.—Following the example of the White House, the Secretary of the Interior and the Civil Service Commission under the direction of Mr. Blaine's friends, the admirers of New York's Governor have purchased a costly cottage near Holley's Park, at the west end, the deed of which will be given to the First Ladies.

The Governor will be asked to occupy it with his sister this season, when the entire cottage will be renovated and refurbished. The Governor's admirers expect Mr. Cleveland, should he be elected President, to make it his home.
